“Top of the Heap: Frequently Prescribed Medications and Clinical Dental Considerations”

February 20, 2019 @ 6PM

Objectives:
1. Identify the most frequently prescribed FDA-approved brand name medications for the treatment of systemic illness.
2. Discuss the basic mechanisms of action, potential adverse reactions, drug interactions, and contraindications of these medications.
3. Explain the clinical dental considerations of these medications, and their potential impact on dental therapy.
4. Describe patient management strategies essential for successful treatment planning and proper care of our medically complex dental patients.

Speaker: Thomas Viola R. Ph., C.C.P.
Location: Holiday Inn Clinton
111 West Main Street, Clinton, NJ 08809
